## About IFATSEA

Since 1972, IFATSEA has served as the authoritative voice on the competence of air traffic safety electronics personnel (ATSEP). IFATSEA is recognized by the International Civil Aviation Organization (ICAO) as an international organization representing ATSEP globally. Using our strong global network, we actively contribute to the improvement of air traffic safety performance around the world. IFATSEA has been a key contributor in working with ICAO developing materials on the basic training and competency of ATSEP. IFATSEA also has contributed to the development of the Single European Sky through its participation in the activity of the SESAR Joint Undertaking and EUROCONTROL.

IFATSEA is now recognized as an official Air Navigation Commission (ANC) Observer in ICAO. We are starting a new journey contributing to ICAO on the highest level of commissions, panels and working groups.

## Objectives

- To operate as a non-political federation of air traffic safety electronics associations.
- To promote safety, efficiency and regularity in international air navigation.
- To assist and advise in the development of electronics systems in order to maintain the safe, orderly and expeditious flow of air traffic.
- To uphold a high standard of knowledge, competency and professional efficiency among ATSEP.
- To protect and safeguard the collective professional interests of ATSEP.
- To make mutually beneficial affiliations with other professional organizations.
- To strive for a worldwide federation of air traffic safety electronics associations.

## Organization

IFATSEA is a global organization divided into four regions, each with its own director. In addition to an annual General Assembly, the regional directors hold various meetings to support member associations. IFATSEA also has an ICAO liaison officer who provides an important link to ICAO headquarters, ensuring timely communication and collaboration.

Involvement in IFASEA gives you and your association the opportunity to bring your voice to the international stage.

## Membership/Affiliation Support

Professional associations or unions can register to be an affiliate.

IFATSEA can provide support in the creation of an association if required.

New applicants are required to pay a joining fee once it has been confirmed that the applicant shares aims and values consistent with those of IFATSEA. There is also an annual fee which reflects the number of ATSEP that are present in any affiliate.
